

PEST B GONE INC WILL BE PROVIDING TREATMENT FOR THE CONTROL OF  
PHAROAH ANTS

RESIDENCE ON \_\_\_\_\_ BETWEEN 9 AM TO 5 PM.

**Preparation for Treatment:**

Please ensure that the unit is prepared for treatment upon the technician's arrival. We ask that you be mindful of the technician's time, as well as the other residents waiting for treatment. Technicians cannot wait, so if you are not prepared, the treatment will be canceled, and a cancellation fee will apply.

**PRIOR TO TREATMENT**

1. **Move items away from walls:** All your baseboards will be sprayed with boric acid powder. Please move all items at least one foot away from the walls in your entire home.
2. **Clear under-sink areas:** Boric acid powder will be blown into the wall cavities under your kitchen and bathroom sinks. Please empty all cupboards under the sink in both the kitchen and washrooms.
3. **Treatment** Boric acid powder will be blown under your refrigerator, stove, and behind your dishwasher.
4. **Cover caged pets:** Birds or other caged pets (such as reptiles) must be covered with a towel during the treatment.
5. **Seal fish tanks:** Turn off the pump and filter for any fish tanks. Cover the top of the aquarium with plastic wrap (like Saran wrap) for **4 hours** to prevent exposure.
6. **Monitor and place ant bait stations:** We will leave ant bait stations. Please observe any remaining ants and place the bait traps in areas where you see them most.
7. **Do not remove gel:** Please **do not remove** the gel bait for **14 days** to ensure maximum effectiveness.

**Cleaning**

Do not vacuum or clean treated area for 14 days.

**No Pesticides or Cleaning Products**

Do not spray any pesticides or cleaning products in treated areas after the treatment, as this may lead to control failure.

The process of terminating the nest of the ant colony can take up to 60 days. Results of the application will be noticeable within the first week, please be patient and allow the applications to work.

**Pest B Gone**

Thank you for your cooperation!
