

An innovative approach to and old problem

PEST B GONE INC WILL BE PROVIDING TREATMENT FOR THE CONTROL OF
ROACHES

RESIDENCE ON _____ BETWEEN 9 AM TO 5 PM.

HOW TO PREPARE FOR CHEMICAL TREATMENT

PRIOR TO TREATMENT

Preparation for Treatment:

Ensure the unit is prepared for treatment upon the technician's arrival. Due to a high volume of treatments, technicians cannot wait; if not prepared, the treatment will be canceled, and a cancellation will apply.

This is a non-prep treatment; And does not require emptying your kitchen cabinets. There is no need for you to remove pets or to stay out of your suite after the treatment.

HOWEVER, WE REQUEST THAT YOU REMOVE OBJECTS FROM THE TOP OF COUNTER TOPS, FRIDGES AND UNDER YOUR KITCHEN SINK, AND BATHROOM SINK, IN THE AREAS WHERE PIPES ENTER THE WALLS.

No Pesticides or Cleaning Products

Do not spray any pesticides or cleaning products in treated areas after the treatment, as this may lead to control failure.

Our technicians will not move your belongings, if you fail to be prepared for the treatment, only accessible areas will be treated. The better the preparation, the better the outcome of the results.
